Napa Collection

Napa Collection is inspired by California's Napa Valley Wine Country and explores the same expression that is created in farmland where ploughs run through deep soil and high crops shaping beautiful patterns when seen from the sky.

The Napa Collection is the result of an exploration in different ways to showcase and use a rug and it allows even the walls of a space to be filled with tactility, rather than only the floor.

Note Design Studio has created an exclusive collection of rugs with bold expressions that each stand out as pieces of art and the combination of round edges and straight lines makes it an easy to place solitaire.

A three dimensional effect was created by using two different lengths and the combination of high quality botanical silk and wool gives Napa Collection a dramatic contrast and structure of shiny and matte finishes.

For over five decades Ogeborg has been a family-owned business in Sweden. In our design collaborations we invite designers to work closely together with us in the process of creating a rug. We do everything with a great attention to detail and with a profound understanding of the tactile values a rug or carpet requires. We work with honest materials and long lasting high quality yarns that breathes tradition and craftsmanship. A rug helps to define a room and the function of a space. It can set the tone for the whole interior or play a small modest part in enhancing the overall feeling. In 2019 Ogeborg launched the collection Napa, a design collaboration together with Note Design Studio.
